

WHAT TEST ENGINEERS ARE ASKING FOR IN NEXT GENERATION ATE PLATFORMS

- ▶ Flexibility
 - User-defined system deployable to wide variety of applications
 - A flexible system for multiple tests including production test
- ▶ Performance
 - Measurement quality, high test throughput
- ▶ Lower cost
 - Initial system, maintenance, reuse/flexibility
- ▶ Reduced size
 - Small form factor, less instruments for same measurements
- ▶ Longevity and upgradeability
 - Industry standard that enables use of technology upgrades
